**Gas Mains Replacement Update**

Date 12/03/18

We are now commencing week 10 of our Upton Upon Severn project.

We are hoping to complete the final section of Gas main on Old Street Friday morning. Then from Friday until Sunday we will be reinstating and moving plant in preparation for removing the road closure on Old Street Monday morning before rush hour.

The closure on Court street will remain as we complete the short section of open cut main.

We will also have trial hole excavation dug on High street where we will camera the Gas main to determine the route.

In conjunction with the closure on Court Street we will also have Three way traffic lights which will be manned to reduce any traffic congestion.

The next two weeks of the works will be complete under a road closure with a diversion for any through traffic. Alongside the closure we still have to enforce parking bay suspensions on Old Street.

During the two weeks of the closure we will have a gate Marshall on site to help with any delivery vehicles.

Joining the mains replacement team we will also have our Customer vehicle onsite with our Customer Engagement Officers to liaise with customers on site to help with any queries on Friday 09<sup>th</sup> March 11.00am.

We have had our customer team on site weekly and they will be more than happy to engage with customers about the full scope of the works and discuss any concerns you may have.

This is extensive roadwork's and there will be heavy plant, machinery, vans and wagons operating in the working area, the noise and disruption is inevitable but we will move our works on as promptly as possible.

We apologise for any inconvenience caused by this essential work, your Co-operation in this matter is very much appreciated. Should you require any further information in this matter please contact:0161 703 1010

A handwritten signature in black ink that reads "Craig Chittem".

Thanks,

Craig Chittem
